**Navy Doctor Makes Educator To Speak In Alaska**

A Navy doctor who hails from Torrance has earned the friendship of islanders off the coast of South Vietnam with his visits to villages on Ky Hoa Island.

Lt. Cmdr. John A. Emery, assigned to the 2d Light Anti-Aircraft Missile Bn., and his crew of Navy corpsmen travelled to the island three times each week during his stay in Vietnam.

Ky Hoa Island is located in Dung Quat Bay, Chu Lai Marine Base, where Emery was stationed, is located on the nearby mainland.

EMERY DESCRIBED the medical problems on the island as "much the same as they were in the States a hundred years ago."

"Most of the patients," he explains, "can be cured quickly with a few modern drugs. The medicine we practiced was simple, but effective."

Emery said a small hospital is located on the island and a Vietnamese nurse staffs the facility. Minor cases were handled at the hospital.

Emery returned to the States last month and is now assigned to the Naval Hospital in San Diego. He hopes to specialize in urology.

THE SON of Mr. and Mrs. F. A. Emery of 201 Via Los Altos, he was born in Charles, W. Va., and came to Torrance 12 years ago. He was graduated in 1957 from Torrance High School and took his pre-med college courses at UCLA. He earned his medical degree at the University of California's San Francisco Medical Center.

Emery interned at Los Angeles County General Hospital and completed eight months of his residency at Kaiser Hospital, West Covina, before entering the Navy.

Married to the former Vickie Phraul of Seattle, Wash., Emery is the father of one daughter and one

JOHN EMERY Wins Friendship

Dr. Ralph Wilson, curriculum consultant for the Torrance Unified School District, has been asked to address the Alaska Education Association at the organization's state convention in Juneau next March.

Dr. Wilson and Edwin Brown, principal of Casimir Elementary School, spent a week in Alaska last summer training Alaskan educators in the techniques of individualized instruction.

The two Torrance educators conducted their orientation and workshop sessions on the island of Hoonah. State officials plans to begin a pilot program of individualized instruction in the is-

land school which serves the village of 1,000 inhabitants. After introducing the program there, the state education department will incorporate it in the teaching program throughout the state.

TOPICS TAUGHT to Alaskan school administrators and teachers by the Tor-

**To Grant License**

SACRAMENTO—The state Contractors License Board has announced it will grant a contractors license to Chastain Plumbing of Torrance on Oct. 29 provided no written protests are filed

rance pair included: individualized instructional approaches, organization of non-graded schools and classrooms, specialized reading techniques, use of supplementary instruction centers, use of specialized and programmed materials.

While in Alaska, Dr. Wilson and Brown also evaluated materials in the Alaskan state curriculum laboratory for the Alaskan department of education.
